MWS HPA Adapter User Manual

Thank you for choosing the MWS HPA Adaptor, from X-Force Tactical for Gel Ball! Designed with precision and durability, our adapter enhances your gameplay by allowing instant adjustments to muzzle velocity, increasing gel capacity, and ensuring compatibility with a wide range of AEG magazines. Get ready for a seamless and exhilarating gaming experience.

Package Contents

- 1x Pneumaforce MWS HPA Adapter
- 1x Battery
- 1x Charger

Product Features

- CNC 6063 Aluminium construction for durability and lightweight handling.
- Compatible with most AEG magazines including SLR, EMP, Gen8, and LDT Spring mag.
- Allows use with any type of gels, including glow gels for low-light play.
- Instantly adjustable muzzle velocity for gameplay versatility.
- Increased gel capacity for prolonged play.
- Easy plug-and-play setup with included battery and charger.

Getting Started

Safety First: Always wear appropriate eye protection and follow gel ball safety guidelines.

Installation:

- Ensure your gel ball blaster is unloaded and safe.
- Connect the MWS HPA Adapter to your gel ball blaster's magazine slot.
- Ensure a snug and secure fit to avoid any air leaks.

Battery Installation:

- Open the battery compartment and connect the battery to the provided

Usage

Loading Gels: Fill the magazine with your chosen type of gels. **Adjusting Muzzle Velocity:** Adjust the regulator on your HPA tank to set your desired muzzle velocity. The recommended pressure is 90-120 PSI. Do not go over 140 PSI.

Maintenance

- Regularly check and tighten any loose connections.
- Clean the adapter with a soft, dry cloth after use.
- Store in a cool, dry place when not in use.

Troubleshooting

Adapter not fitting properly: Ensure that you are using compatible AEG magazines. Adjust the fit as necessary.

Inconsistent muzzle velocity: Check the battery charge and ensure there are no air leaks.

Gel not feeding properly: Check the battery or the sensitivity and loading time of the FCU.

Safety Notice

Always follow local laws and regulations regarding gel ball play. Never aim at people or animals without proper safety gear.
